WORKING AREAS

Mutual learning and exchange

ASAF facilitates mutual learning among its members through its online community and with external stakeholders. Skill-building workshops, events and meetings are offered to ASAF members on a regular basis.

Promoting learning mobility

ASAF members support international exchanges because they are convinced that international learning mobility builds bridges across borders, cultures, institutions, and people and creates mutual trust.

Policy advice

ASAF focuses on programmes and projects which contribute to modernise and improve Higher Education capacities in Africa at a national, regional, and continental level.
